SECURITY

All account information is password protected. Where appropriate we use industry standard SSL-encryption to protect data transmission. All security on our websites is treated seriously and reviewed by our security & abuse team on a regular basis.

We also undertake security steps, including extensive use of SSL technology, on our back end systems that store customer account information.

At OSC we take security very seriously and make purchasing our services online as safe as shopping at any other store. Your browser will go into secure mode before you enter any personal or payment details. You can check that you are shopping in a secure environment by looking for either a locked padlock or a key icon in the grey bar at the bottom of your screen or for the when the address bar goes green. Being in 'secure mode' means that all of your details are encrypted to help keep them secure. Encryption creates billions of code combinations to protect each transaction made on our site, so your card details cannot be viewed by anyone else using the Internet. If you are using one of the more recent browser versions, our site supports 256 bit encryption and therefore keeps your details as safe as possible at all times.

We only accept payments which are placed using Secure Socket Layer (SSL). This technology prevents you from inadvertently revealing personal information using an insecure connection. No credit or debit card details are stored on our servers once your initial payment has been processed. They are stored securely with Verisign. Once on their systems, all sensitive data is secured using the same internationally recognised 256-bit encryption standards. The encryption keys are held on state-of-the-art, VeriSign's Global Root certificate tamper proof systems, making them all but impossible to extract. The data they hold is extremely secure and they are regularly audited by the banks and banking authorities to ensure it remains so.

If you have any further concerns about security, please email our Customer Service team at info@openstudycollege.com
